PROFESSIONAL SUMMARY

Professional with certification in Generative AI Productivity (Microsoft & LinkedIn, 2025) and advanced hands-on experience with language models (Claude, ChatGPT, Gemini) for process automation, response analysis, and prompt engineering. Native Spanish speaker with strong analytical reasoning, fact-checking, and attention to detail built over 10+ years of operational experience. Technical background in Python, SQL, programming logic, and Computer Engineering (in progress, UADE). Focused interest in LLM evaluation, AI output quality, and data annotation.

APPLIED GENERATIVE AI

- Daily use of Claude (Anthropic), ChatGPT (OpenAI), and Gemini for operational task automation, data analysis, and report generation.
- Design and optimization of prompts for information extraction, synthesis, and structured reasoning.
- Critical analysis of LLM outputs: evaluation of coherence, factual accuracy, and response quality.
- Workflow automation combining generative AI with Python and Excel to reduce manual effort.
- Hands-on experience with Claude Code and AI agents for search and data processing tasks.
- Certification: 'Generative AI Productivity' – Microsoft & LinkedIn (2025).

PROFESSIONAL EXPERIENCE

Planner – Data Analysis & Automation – *Galileo Technologies S.A.* | Feb 2024 – Dec 2025

- Critical and structured analysis of demand and inventory data; identification of anomalies and patterns in large datasets.
- Report automation with SQL and macros: reduced data errors and improved information consistency.
- Use of generative AI to accelerate analysis, report synthesis, and inconsistency detection.
- Cross-functional coordination with precise documentation and rigorous process tracking.

Supply Chain Administrator – Digitalization & Data – *Galileo Technologies S.A.* | Jan 2022 – Jan 2024

- Process digitalization and data quality control in ERP systems.
- Development of macros and automated reports to ensure data consistency.
- Fact-checking of operational data for management reports.

Supply Chain Manager – *Galileo Technologies S.A.* | Oct 2019 – Dec 2021

- Evaluation and quality control of logistics processes.
- Documentation and incident reporting with root-cause analysis.

Operational Roles with SAP – *Cartones América Argentina S.A.* | Mar 2015 – Aug 2018

- Cross-functional use of SAP across production, quality, purchasing, and warehouse; attention to detail and complex instruction follow-through.
- Management assistance with reports, data analysis, and cross-departmental coordination.

TECHNICAL SKILLS

AI & LLMs: Claude (Anthropic) · ChatGPT (OpenAI) · Gemini · Prompt Engineering · Output Analysis · Fact-checking

Programming: Python · SQL · JavaScript · Java

Data Analysis: Power BI · Advanced Excel (macros, pivot tables) · Oracle SQL

Web Development: HTML · CSS · JavaScript · Bootstrap

Tools: GitHub · Jira · Trello · Claude Code

Cybersecurity: Attack surface analysis (certification 2025)

Languages: Spanish: Native | English: B1 | Italian: A2

EDUCATION

Computer Engineering (in progress) — UADE, Universidad Argentina de la Empresa

Mechanical Technician – Machine Tools — Escuela Técnica N°23 Casal Calviño

CERTIFICATIONS

- ★ Generative AI Productivity – Microsoft & LinkedIn (2025)
- ★ Cybersecurity – Educación IT (2025)
- Data Analytics – CoderHouse (2023)
- Python – CoderHouse (2023)
- Web Development – CoderHouse (2023)
- Public Speaking – UBA (2014) | Leadership – UBA (2014)

Portfolio: <https://s-andol.github.io/Portfolio/> — AI automation and web development projects.
